Delivering a high quality simulation

Please use this assessment tool to document your observations whilst in the role of assessor.

1. What was your reaction to how the team performed during the simulation activity? What aspects of this performance would you like to discuss further as part of the debrief?

2. Was there any aspects of the team's performance that you would like to discuss further? Use the 'I Saw, I Think, I Wonder' framework to guide these discussions.

3. What are the key learning points from this simulation that might be used to influence a change in practice?
